Dear Dave,

Re: Stained Glass Windows Repairs

Thank you for inviting me to look at the work completed to date on the main West window, we met late on Friday 7 December at the building.

I am sorry about the slight delay in writing to you, I may have said that I was about to be away for a few days.

It was dark, but we were able to see the work well enough I think. It does look as though the repairs have been completed to a good standard. You have I think now, a plan to have the South West window replaced rather than repaired following comments from Salisbury Glass, which I understand in principle. Perhaps when that work is completed, I can meet up with you again to look at this also.

But in terms of works completed to date this does look to be of a good standard and so no doubt you will be able to pay Salisbury Glass if you have not already done so following the meeting we had together.

And so no doubt we might speak in the New Year. I the meantime very good wishes to you over this Christmas season.

Yours sincerely,

Neil Barr
Director
DLK Architects
