Dear Reverend Kathryn Hammond

Re: Heating Installation at St Peter's Church, Norbury, Stafford

I visited St. Peter's Church on Tuesday 16th April to inspect the recently completed electric heating installation. I confirm that this has been undertaken in line with our Faculty approved drawings. Works have been completed to a suitably high standard and the wiring installation is particularly discrete.

The works were undertaken under an exchange of letters. This letter should be regarded as our completion certificate for the works and passed onto the DAC for their records.

Yours sincerely

Adrian Mathias
