

Church of the Ascension Burghclere

Application Ref: 2017-011221

Diocese: Winchester

Archdeaconry: Winchester

Summary: Accessible Toilet housed outside and Kitchenette internal.

Additional information for Completion.

Note on the involvement of the Church Architect, Richard Codd.

Richard Codd was involved in the early stages of the project to provide advice, to draw up plans and create a schedule of work.

The selection of the contractor, RJ Smith was carried out by James Lewin, PCC Member, and Sandra Whiting with some guidance from Richard Codd.

In negotiations with RJ Smith it was felt that the project had been well defined and was small enough not to require a Project Manager. Instead Lewin and Whiting undertook to oversee the project.

Consequently, there can be no Completion Certificate as the church architect was not involved in the actual build and had no oversight.
