THE ORGAN

I am pleased to be able to certify as complete the remedial works to the organ.

The new Pedal mechanism works perfectly and the lower panelling has been neatly tidied-up. It is good to see a few reclaimed key ivories glued to the keys whose ivories were previously missing.

The organ needs a good tuning - particularly the Swell Oboe - but this can wait until Advent so that it is in perfect tune for the Christmas services, which I'm sure will take place in some form or other, despite the Covid-19 situation.
