Andrew Boyce

to me

Dear Chris

I can confirm the recent satisfactory completion of the above noted work as carried out by L A Hall of Hull and completed in accordance with their quotes and the specification.

I hope this will allow the completion of the Faculty procedures.

With kind regards

Andrew

Subject: 2 things

Dear Andrew,

I tried to fill in the online Faculty Completion notices for the roof repair and for the work on the chutes and gullies, but they want a Completion Notice from you as architect. Could you send me one for both pieces of work?

Also, I wanted to discuss some possible future work, which you might find interesting. We have received a large legacy for the fabric of the church, and are wondering whether/how to use some of it. We may well want ideas/advice from you. Would you be interested?

Best wishes,

Chris
