13th September 2021

Ref: Faculty re New Heating Church All Saint's Stradbroke

Faculty Ref: 2020-057182

The above faculty has been completed with only partial removal of the old heating system.

The defunct oil-fired boiler and modern convector heaters have been removed as recommended by the Church Architect Nicholas Warns. The remaining pipe work and radiators are not intrusive and in the future if required, could be used for Ground source or hydrogen heating.

Apologies for not completing the information online, as difficulty was incurred in that, boxes for entering information when highlighted, wouldn't accept keying in information. I am sure I along the line a simple error on my part. .

Yours sincerely

Peter Chetwynd
Churchwarden
