6th December 2021

For the attention Mr Aiden Hargreaves-Smith

Dear Mr Hargreaves-Smith

St. Christopher's Willingale Faculty No. 2021 064738

Thank you for your letter dated 1st December 2021 to which was attached the above faculty for the hanging of a plaque.

We note the condition of the faculty that the plaque be secured with pig nose bolts. We can confirm that the plaque has been secured with pig nose screws, stainless steel screws were used to eliminate any risk of the screws corroding and causing staining, the plaque is mounted with an air gap between back of the plaque and the wall to prevent any interaction of damp between the two. Please see photos attached.

We have submitted the certificate of practical completion via the on-line system.

Yours sincerely

Peter Tottman

Pig nose screws one at each corner

Air gap between wall and plaque
