

HEALTH AND SAFETY/CIM
 The contractor shall take full responsibility for the project in line of 'Duty of Care' as defined by the Health and Safety at Work Act 1974 and associated regulations and as such the design has been considered for foreseeable hazards and associated risks.
 However, these items should not be considered as being specifically hazardous.
 The contractor's normal H & S obligations still apply when undertaking construction operations both on and off-site. This also applies to all works (Sub-contractors).
GENERAL NOTES
 1. This drawing is to be read in conjunction with all relevant architect's, and all other drawings. Any discrepancies in relation to the above should be brought to the attention of the architect immediately.
 2. For the purposes of construction this drawing must not be scaled, and only written or calculated dimensions are to be used.
