Form 8

(Rule 7.4)

Certificate of practical completion of works authorised by faculty

In the Consistory Court of the Diocese of Gloucester

To the Registrar

Parish of Woodchester

Church of Woodchester: St Mary

A faculty dated 22/11/2019 authorised the following works subject to the following conditions:

Install new screen and screen lift: To supply and install a Screen International Compact electric screen, 300cm x 188cm (16:10 format) with a screen lift. This would be sited behind the chancel arch, mounted as high as possible to keep both screen and lift out of sight from the nave of the church. Power would be derived from an existing 13- amp outlet and run up to the lift and screen in the corner of the arch. Fixings for the lift would be into the masonry at the rear of the arch or the roof timbers whichever offer the best location for the lift following high level site survey. Install new projector: To supply and install one 6,000 lumen, WUXGA 1920 x 1200 laser illumination system providing up to 20,000 hours of reliable, virtually maintenance free operation backed by a five year or 10,000-hour warranty. The projector would be mounted above the south wall of the nave adjacent to the arched brace timbers. Power would be derived from an existing 13-amp outlet and an HDMI cable run from the projector down to a location suitable for connection to a laptop. The temporarily-loaned electric screen, and the old manually-opened screen, will be removed from the rood screen (prior to its relocation under faculty already granted). The former will be returned to the supplier, the latter will be disposed of (it is more than 25 years old). Please see attached mock-up picture and marked-up plan.
