Dear Mr. Ritchie

Thank you for kindly informing me of plans for alterations to the interior of All Saints Church, Norton

I am sure that after 50 years my late father would agree that the glass screen should be removed to improve the church environment and safety structures of the building. He would appreciate that structures degrade with the passing of time.

Therefore the PCC should submit their renovation plans to the Diocese of Bath & Wells as they see fit.

Again, many thanks for informing me

Yours sincerely

John Clark
