Movement Restoration

6th June 2024

Fully dismantle all the movement into parts small enough to take down the tower, remove all the clock parts from the tower and take to my workshop, further dismantle the parts of the clock so all the parts can be cleaned and degreased.

Polish any scored or worn pivots and bush any worn bushes ensuring the correct depthing of the wheel teeth to the pinions is maintained.

Repair any wear on the lifting and locking parts of the strike and chime.

Polish any scored or worn pivots and bush ensuring the correct depthing of the teeth is maintained. Remove/repair any wear on the lifting and locking parts of the strike and chime.

Replace the barrel arbour with a duplicate in hardened and tempered steel.

Repair and fix the third wheel to its arbour.

Service the autowind motors and replace any worn belts.

Reassemble and test the movement. Disassemble, return to the tower, reassemble and set up and test and then set running.

I would not recommend only doing the minimum required repairs, the three trains of the clock work in conjunction with each other, any problems on one train can cause further more serious problems to one of the other trains.

To Strip and restore the clock	£6400.00
To supply a hardened and tempered steel barrel arbour	£320.00

These prices are fixed for a period of six months from the date of this letter, thereafter subject to price increase in accordance with increased costs of labour, materials and travelling costs if necessary.

Payment terms 30% upon removal, the balance within 14 days of the date of invoice following completion of the work.

All goods remain the property of the vendor until full payment has been made and any relevant cheques cleared. Risk passes on delivery.

All work will be done inline with turret clock code of practice guidelines.
We are not vat registered.

Kind Regards
Symon Boyd

Please note, before I can start work on any Church Clock I am obliged to check that relevant permissions for the work are in place for works requiring a faculty, this will be the faculty decision letter from the Diocesan Chancellor. For List B works, this will be the approval letter from the Archdeacon.
