

Prenton St Stephen – Brackets for relay screens - Correspondence with parish and others

Date	Message
<p><b>09/10/2024</b></p> <p>To: Matt Graham From: David Bayley</p>	<p>I write to advise that at it's meeting on the 27<sup>th</sup> September 2024 the DAC considered the application from St Stephen's for the installation of mounted brackets for relay screens and the committee resolved to recommend the scheme with the following provisos:</p> <ul style="list-style-type: none"><li>a. The works to be under the direction and subject to the inspection of the Church Architect</li><li>b. Any electrical works should be carried out by an electrical contractor accredited with the NICEIC or ECA, to the standards recommended in the Churchcare "Guidance Note: Electrical Wiring Installations in Churches" available via <a href="https://www.churchofengland.org/sites/default/files/2018-11/CCB_Electrical-wiring-installations-in-churches_Apr-2013.pdf">https://www.churchofengland.org/sites/default/files/2018-11/CCB_Electrical-wiring-installations-in-churches_Apr-2013.pdf</a></li></ul> <p>The DAC having met at Grappenhall St Wilfrid the committee also wished to offer the following informal advice:</p> <ul style="list-style-type: none"><li>c. It suggested the parish may find it helpful to speak with Grappenhall St Wilfrid as they have recently fixed monitors to brackets on columns and may offer comments and advice from their experience of this work</li></ul> <p>I will progress the online application as soon as possible</p>
