All Saint Church
Church Road
Trull
Somerset
TA3 7JZ

For the attention of Rob

RE: Trull All Saint Church

Further to your EICR and my recent site visit , we have pleasure in offering the following quotation for your consideration.

Item 5 & 7 (Budget cost and to be completed once works have been completed on the bell tower)

Bottom Bell Tower –

To supply, wire and fit an emergency bulk head, controlled via a metal clad switch on the opposite wall.

Mid-Stairwell –

To supply, wire and fit an emergency bulk head, controlled via a metal clad switch on the same wall.

Top- Stairwell –

To supply, wire and fit an emergency bulk head, controlled via the metal clad switch mid-stairwell.

Bell Ringers Platform –

To supply, wire and fit 2no. black angle spots replacing existing fittings and the same positions, controlled by a one-way switch.

Registered in England No: 1264319. Registered Office as above.

Clock Tower Mechanism –

To supply, wire and fit an emergency bulk head, controlled via a 2 gang metal clad switch.

Belfry –

To supply, wire and fit an emergency bulk head, controlled via the 2 gang metal clad switch below.

All circuitry will be wired in FP200 and supported by metal P-clips

We shall be pleased to carry out the works for the sum of £2,396.00 exclusive of VAT.

External Light

To supply, wire and fit a galvanised Davey exterior bracket light with clear glass, wired in SWA cable, cleated directly onto the exterior stone

We shall be pleased to carry out the works for the sum of £593.00 exclusive of VAT.

Yours faithfully
FOR REF ELECTRICS LTD
