

Extract of Applicable PCC minutes

PCC Meeting 3rd February 2025

05.010 CHURCHYARD PLOTS. SB reported that the area used for cremation plots is nearly full with space remaining for only 4 or 5 plots. One was due to be used that week. LT, MJC and SB have identified a possible area in the NE corner of the churchyard for around 15 additional plots. It is by a gap in the wall no longer used and originally there for access to the shed that housed the funeral bier. It would require the gap to be filled in by a stonemason. A faculty is required to use the area. CD proposed, MEC seconded and it was agreed that the wardens should apply for the faculty.
