The information request above is to enable Herschel Infrared Ltd to carry out a desk-top assessment of the estimated heating required.

If the Company is asked for advice as to the suitability of any product such advice will be given to the best of the Company's or its officers' ability and in good faith but such advice is only given on the express condition that the Company is exempt from liability for failure in performance resulting directly or indirectly from such advice. (For full details, please refer to or request Herschel Infrared Ltd's full Terms and Conditions of Sale)

If an on site survey is carried out, Herschel Infrared Ltd will not be carrying out an intrusive site survey and will rely on a visual inspection only as well as the information (including but not limited to any plans, drawings, M&E specifications, Health and Safety information, Asbestos or other survey information) provided by the client which will be assumed to be correct. Herschel Infrared Ltd and its employees are not trained electricians and all clients are advised to take specialist electrical advice to assess the suitability of any proposed order and installation.
