Good afternoon, James

Thank you for sending me the documents relating to the proposed new radiant heating system for St Michael and All Angels, Flax Bourton.

The church, whilst small, is very busy and well used by the local community. I think the proposed heating scheme is appropriate and will work very well. You have my full support as Church Architect.

Please let me know if I can be of any assistance and feel free to add this email to your online application.

Kind regards

George

Dear George,

Further to our conversation, we have uploaded a number of documents to the OFS for the proposed heating project at Flax.

It would be great to add an email of support from yourself, as we discussed. If you could send me that, I'd be grateful.
