

St Catherine's Church Drayton

Heritage Fund Bid

Catherine Wheel Mosaic

Brief

This brief describes the desired outcome for a mosaic outside the south porch of St Catherine's Church, Drayton, TA10 0JT.

Description

Design and install a mosaic in the pattern of a wheel of St Catherine (in the form of a spiked wheel, the emblem of St Catherine, as seen in a number of locations within the church) in the space approximate 1.2m by 1.2m directly outside the south porch of St Catherine's Church Drayton.

Materials are to include local stone and specifically some element of recovered slate from the roof which is being replaced.

Where possible design, installation work and materials, are to be traditional materials and procured locally.

The surface is to be a non-slip as possible.
