## **Practical Completion Meeting July 18<sup>th</sup> 2017**

**Job: A71**

**Mark Parsons Church Architect**  
**Stephen Anstey Main Contractor**  
**Piet Walton-Knight Project Manager for PCC**  
**Rev Andy Murphy-apologies**

All works complete apart from two restored glazing panels to south elevation of the south aisle and also one panel to the east elevation of the south aisle-Peter Butters to complete within 1 week

Some stonework left to do including one ashlar stone block left loose on north side of chancel; request that a poorly shaped high level ashlar stone replacement be 'refitted'.

The repair to the tower steps could not be viewed as the keys were not available on the day.

The repointing of an internal crack over the west window of the south aisle could not be viewed for the same reason.

South Tower and Part West South Aisle	Tower Door
